

Investing in the global community

by supplying clean electricity to over 25,000 homes in Spain

Mubadala is an investment and development company focused on the creation of sustainable value within the communities and sectors in which it operates. Masdar, our wholly owned renewable energy and clean technology initiative, owns a significant stake in Torresol Energy, a joint venture with SENER Grupo de Ingeniería of Spain.

Founded to build and operate Concentrating Solar Power plants globally, Torresol recently inaugurated the Gemasolar facility in Fuentes Andalucía, Spain.

With its 19.9 MW nameplate capacity, Gemasolar is expected to save more than 30,000 tonnes of CO₂ emissions a year, and is helping contribute to Europe's 2020 climate and energy targets.

Investing in the global community

through one of the world's largest green field projects

Mubadala is an investment and development company focused on the creation of sustainable value within the communities and sectors in which it operates. Emirates Aluminium (EMAL), our joint venture with Dubai Aluminium (DUBAL), is the largest industrial development in the United Arab Emirates outside the oil and gas sector.

Upon completion of Phase II of the project, the Abu Dhabi based facility will have an annual production capacity of 1.3 million metric tons, making it then the most productive single-site aluminium smelter in the world, and the fifth largest aluminium producer in the world.

Since celebrating its inaugural international shipment to South Korea's Daewoo International Corporation in 2010, EMAL has established a diverse global customer base, and currently provides high-grade aluminium to 82 customers in 19 countries.

Mubadala is helping to shape the future

At Mubadala, we manage capital-intensive investments that are facilitating Abu Dhabi's growth, delivering strong financial returns and tangible social benefits to our community.

Our business interests match many of the sectors on which the successful transformation of Abu Dhabi's economy and its future prosperity depend.

We partner with leading global organizations to develop, operate or invest in businesses across a wide range of industry sectors such as aerospace, healthcare, financial services, infrastructure, metals and mining, semiconductors, and real estate.

By doing so, we are accomplishing our mission to expand and diversify the Abu Dhabi economy.

Our commitment to Abu Dhabi also extends into investing in various community initiatives by encouraging the next generation to be involved in a broad range of opportunities that contribute to the UAE's social development and future ambitions.

We are committed to supporting the creation of an environment where the youth of the UAE can embrace a healthy lifestyle, pursue a world-class education and support Abu Dhabi's arts, culture and heritage.
